This is a submission objecting to the proposed Port waratah coal services Terminal 4 development in Newcastle (10_0215). **The T4 proposal must not be approved** due to the significant and unacceptable impacts as detailed below.

- The air pollution generated will harm human health.
- The increase in coal mines will destroy prime food-producing agricultural land.
- It would be irresponsible for Australia to further contribute to global warming.
- Natural habitat will be lost to local and migratory species.

As submission makers are required to disclose political donations totalling \$1000 or more in the past 2 years, I can state that **I have not made a disclosable donation.**

Your Sincerely,

(Signature)

Y. Fulton
