Hi There,

We support the extension for the permit at North Byron Bay Parklands,

We currently attend the events held here and this is a major part of our income,

We support local produce and foods from the area, we employ locals from Byron Bay

region and we stay locally before and after the event and spend money at local restaurants and hotel service stations

NBBP Have spent a lot of money on infrastructure i.e. the roads, tree planting environmental toilets

It brings a lot of tourist from all round Australia to the area & they stay in local area in the area and spend the money
