Subject: Water Related Services - NW Growth Centre

Hi Kane, I have reviewed the EA documents prepared by Sydney Water in relation to Water Related Services to the NW Growth Centre on behalf of the Sydney West Public Health Unit (NSW Health). I note that Sydney Water has considered the impacts of the development on air quality, noise, odour and the risk of wastewater exposures and has plans for management/mitigation for the identified risks. I do not have any specific comments on the EA or associated documents.

Thanks for providing us with the opportunity to review the documents.

Regards
Helen
