

The EA states the native fish species were very scarce , that is far from the truth , I believe the **effort** to “ find “ the amount of species and number of fish was the only thing **SCARCE !**

Below is a very small sample of the diversity of species in and around the proposed Gardiners Water Hole Pump Site

Pic

1 Trout cod

2 Trout cod

3 Trout cod

4 Trout cod

5 Murray cod

6 Murray cod

7 Murray cod

8 Murray cod

9 Silver perch

10 Catfish

11 Catfish

12 Catfish

13-17 Silver perch

18 -19 Golden perch

20-21 Freshwater blackfish

22 Trout cod caught from the proposed Boshes Creek junction pump site!
