Re: EPHYC P/L Jupiter Wind Project No. SSD13_6277

In reference to the latest plan shown on the proposed Jupiter Wind Farm .

The map used is obsolete as on lots 64/77 Boro Road Boro. There is no more Government right of ways on these lots as I purchased same in August 2014.

Over many years the government had offered for me to buy these right of ways, which I eventually purchased them.

My tenant , Mr Salmon to whom I lease the property, has lived there over twelve years. We keep animals grazing on the property and cannot have people travelling through, and also the gate is locked most of the time to prevent theft.

Approximately two years ago a car with three people from Sydney, representing the Wind Farm Project, arrived at the property and Mr Salmon assured them that we didn't want Wind Farm People on the property or travelling through it, and we didn't want the turbines close to the boarder line because of the noise they create. He was assured by one of the representatives that he would not hear the turbines on the edge which is not far from the dwelling, but Mr Salmon disagreed as he does hear others further away.

In the meantime we had received a thick folder of documents from their solicitors, but we ignored it as we are against having these turbines on my property.

I have enclosed a copy of the plan on lots 64/77 with the right of ways outlined.

I am totally against having these turbines through my property.

Yours sincerely

Catherine Vella
