In Favour

Reasons Why

- **Economic Development of the area**
- **Increase in services for the area**
- **Fire Breaks and easy access to the remote areas**
- **Increased revenue from the least productive areas of the property, while not restricting the current agricultural land use.**
- **Investment in renewables will bring a much needed industry to the area.**
- **Tourism potential**
- **Investment in renewables is important for the environment and for preservation of limited resources**

Concerns

- **Open discussion of the pros and cons of the project is not possible as the people who don't support the project dominate the proceedings and threaten those who speak up.**
