ATTENTION: EXECUTIVE DIRECTOR - RESOURCE ASSESSMENTS & BUSINESS SYSTEMS

I believe wind towers should be built closer to where the power will used. Build the towers in the cities and towns

Thank you

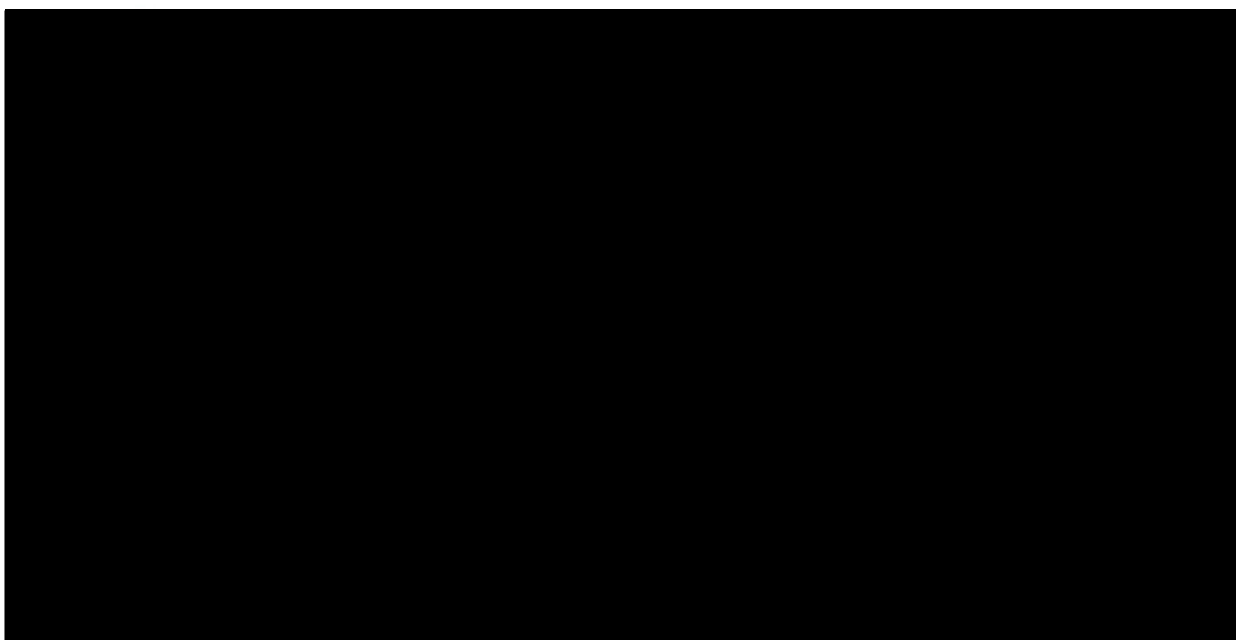

I do not want my personal details made public

I object to the proposed Jupiter Wind Farm because I think that the loud noise that it makes will hurt the farm animals.

I also do not like wind turbines because they can start fires.

I do not think that they fit in the country side.

I wish to object to the proposed Jupiter Wind Farm.

My grandparents live in Tarago and I do not want them to have to move because I like it out there.

It is making the people of Tarago very upset.

The noise can hurt peoples ears.

They are MASSIVE and could fall at any time - there is only one two story building in Tarago and the wind farms are a whopping fifty five stories high!
