Jupiter Wind Farm Submission-NSW department of Planning

I would like to register my opinion about the Jupiter wind farm.

I am completely opposed to it and think it should not be approved.

I am appalled at the amount of turbines that will be seen every time I visit my daughter in Tarago. How would any of you like to have huge wind turbines built near your home?

People have worked hard to build homes and now they will be forced to live in a wind farm

I just can't believe so many turbines will be allowed to be built in this area, it is not the right place.
