

4. Finally it would be devastating to town if the Athol Gardens function centre had to close. This is the very sort of business that the town should be encouraging. Many local businesses benefit from it. For example, at the Gladstone Hotel we regularly have our accommodation (8 rooms) booked by guests who stay for the weekend. Also our "Two Sisters" restaurant is often booked for group brunches and lunches by wedding guests for a "recovery" the day after the wedding. We know first-hand what a fantastic venue this is as our daughter was married there 9 years ago.

I confirm that we have not made any reportable political donations in the previous two years.
Yours sincerely

Graham Roberts
