---

Hi,

The M2 Motorway Lane Cove Road Eastbound On-Ramp is a brilliant idea and one that should have been done from the beginning.

The 'white elephant in the room' is why is there no west bound off ramp at this same site?

This would be even more appropriate and avoid thousands of cars having to exit at Pittwater Rd and navigate through a choked North Ryde precinct just to head north on Lane Cove Rd.

Why has this not been planned ?

Regards  
Cassandra
