Re: Opposing MP09\_0216 (Stage 1- 10) and MP09\_0219(Stage 1)

Dear Sir/Madam,

We write this letter to express our views regarding overdevelopment in Ryde.

My family and friends have been living in Ryde for several years. We believe that height and density in this area have reached their limits. We really need greater open space for the public rather than overdevelopment!

Traffic Congestion

Traffic on Constitution Road and Belmore Road is getting worse during the peak hour. The congestion is serious and residents are frustrated. The roads are significantly narrow and could not afford more vehicles.

Environmental Problem

Many residents have doubts that overdevelopment will cause environmental problems, especially for quality of water. We have been experiencing twice water problems and electricity failures during the past 12 months.

Noise Level

The developer/constructor work 6 days, including Saturday (Such as Meriton), from early morning until late afternoon. It causes serious health problems to children and elders. Some of our neighbors have been moved out during the past several months. More people consider run away from Ryde.

We really hope the Minister will consider our situation and stop the overdevelopment. Our last and sad choice is that we have to leave Ryde and seek new place.

Yours Sincerely,

Residents in Ryde

Le Kang  
Jennifer Chisra  
Lydia Lu  
Jennie Zhang  
Dandi Cui  
Bernie Xu
