

PCU078299

Annandale 2038
23/9/19

Submission on M4-M5 Link Mod 2.

This change is a betrayal of ~~the~~ those who accepted the previous plan (despite misgivings)

It fails dismally those of us who access the harbour foreshore by foot or bike.

It is ugly in the extreme and particularly dismissive of those who live at the northern end of Annandale.

It discounts the necessity for trees for the amenity of the local population.

It is clearly not pedestrian friendly.

We need an urgent review of this plan. It is not compensated for by the new park in Rozelle.

Please reconsider this terrible design!

Jenny Ellyard
