RE: OBJECTION TO APPLICATION SSI 7485

Dear Sir/Madam,

I write to object strongly to modifications of the approved design of the M4-M5 link MOD 2.

The modifications violate the conditions under which consent was previously made and thus display a dishonest and cynical contempt for the approval process. This is not acceptable.

Specifically SSI 7485 seeks to replace the promised underground tunnel with a monstrous unsightly overpass that will destroy Buruwan Park, obscure an important mural, and sever the promised pedestrian and cycling green link between Bicentennial Park and the Rozelle Goods Yard. Further it will prevent motorists from turning right out of Johnston Street at the Crescent.

I ask that you respect the principles of fair dealing and reject this attempt to inflict an unwanted eyesore on our local community. I ask that you protect the beauty of Buruwan Park that has already suffered destruction along its northern edge. I ask that you retain the green link of the original proposal, do not obstruct the mural on the Crescent, and allow motorists to turn right into the Crescent from Johnston Street.

Yours Sincerely,

Miguel Heatwole
