

Application Number SSI 7485**WestConnex M4-M5 Link – Modification 2 The Crescent overpass**

Peter Mitchell
Glebe

I am a resident of Glebe and live near Bicentennial Park and The Crescent.
I am appalled by the modifications to the plans proposed for the intersection of The Crescent and the City West Link.

The proposed overpass will visually ruin this very beautiful part of Rozelle Bay, involving the loss of many established trees and disconnect the community of Annandale from the parkland. An underpass is a much better option. The overpass will visually pollute this area and create an LA style road environment that is completely inappropriate in the area of Annandale.

There is a historic mural in this area that would be under threat from the proposed overpass. There has been a lot of ongoing criticism of the NSW Government for its spaghetti junction at St Peters, and residents of Glebe and Annandale do not want that imposing, and socially alienating, type of structure on the edge of Rozelle Bay.

We want any proposed roads in this area to have the least impact on the communities views, access, visual environment, and vegetation/ trees as possible. The initial proposals are a much better option for the local community and I request that the amended design be rejected in its entirety.
