

Application Number SSI 7485
WestConnex M4-M5 Link – Modification 2 The Crescent overpass

Robyn Potter
Annandale

Dear Minister and Planning

I wish to lodge an **objection** to the new eyesore that has been planned at the Rozelle-Crescent interchange. Not only is the design bigger than was originally planned, it is now above ground. It will resemble a dreadful overpass that has ruined the city of LA. It is unsightly, unfriendly and takes away the amenities of walking or riding around the Rozelle bay and getting back to Annandale via one single 15m wide traffic light. From looking at the plans, there seems to be up to five lights pedestrians and cyclists will have to use to get to the walkway around the bay or Bicentennial Park. And in the process up to 70 trees will need to be destroyed. This west connex and M4 extension is a blight on the inner west. Please don't build this ugly connection above ground and keep the easy access to the bay there for all to use. It's very disappointing to have to ask not to ruin our suburb and kill our trees.

I hope there is enough community action against this design and you find a better way.
