

Application Number SSI 7485**WestConnex M4-M5 Link – Modification 2 The Crescent overpass**

**Alese Watson
Rozelle**

I'm not sure if your online portal has been made deliberately hard to use so it's harder to object....but after losing 15 minutes of my life, that I will never get back, I am sending this the old school way. I object to the Annandale spaghetti overpass, for the negative impact it will have on the environment & community.

And for anyone that's settling in with their coffee this morning and is a bit bored, I've provided some further reading entertainment below. I've really thrown my shoulder into it, but tried to keep it succinct.

I live in Rozelle and every week I receive yet another flyer, advising what this weeks impacts on us will be. I will say though, I do appreciate the level of detail, comms have definitely improved there. However all of you have pretty much made this area unliveable and a barren, increasingly treeless wasteland just to, according to Shorten, 'get more motorists moving'. There has been a noticeable decline in urban wildlife here and a significant increase in traffic. I'm across the sales sizzle of improving traffic flow and looking after the residents who don't live in the Inner West, but what will actually happen is already playing out in my street - Gordon St. A previously quiet street, which each weekday AM has now turned into bumper to bumper traffic and a speedway at other times. When West Connex is finished, do you know what is going to happen? Traffic flows in our area will worsen further as the number of cars increases and they use a rat run of local streets, so as to avoid the tolls. I don't think I need to remind you about the overwhelming successes of the Lane Cove & Cross City Tunnels where human nature continues to prevail. You aren't actually going to achieve your objectives. If Any of you actually cares about what you do, the contribution you want to make and the legacy you want to leave, can you please start thinking about what really matters, or at least be honest about your initial intentions. It would save you having to read yet another painful complaint.

I look forward to your response and please don't refer me to the overall submission, I've already read it in detail.
