Dear Director

**PROPOSED FOXGROUND AND BERRY BYPASS  
VICTORIA STREET DESIGN OPTIONS, NOVEMBER 2012**

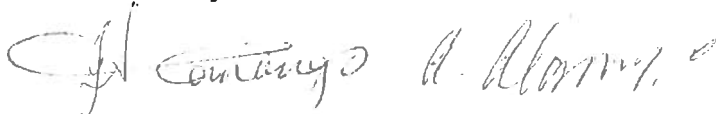

I support Option 3 and request you, the Director of Infrastructure Projects, to instruct the RMS to implement Option 3 for Victoria Street, Berry.

By keeping Victoria Street open and maintaining two-way travel between Queen Street and Victoria Street, with the southbound on-ramp south of Victoria Street, will provide the greatest benefit to the people of Berry and surrounding areas.

It is the option which maintains most closely the present traffic patterns for locals and for the many travellers who use Mark Radium Park, a favourite 'Rest and Revive' spot.

To have Victoria Street open is a much better option than the unnecessary forcing of traffic onto George and Edward Streets which would occur if Options 1 or 2 were employed.

Yours faithfully
