Comments Concerning Victoria Street,Berry, in conjunction with Berry By Pass

Up until this moment I have not held a view on the closure of Victoria Street.

Commonsense says Victoria Street must be keep open.

- . A slip road southwards providing access from the Vannini Property and the BUPA aged care is essential
- . As is all traffic other than local traffic be kept out of streets such as George, Edward etc.
- . Victoria Street at the Princes highway end runs through the most densely populated part of Berry.
- . Consequently RMS and other Authorities have a duty of care to ensure the road system and traffic flows through that area are safe.
- . Mark Radium Park is an institution in Berry.It is a much loved haven for jaded travellers.
- . Hundreds of people use it daily and many hundreds through holiday periods.
