16th December 2012

The Director
Infrastructure Projects
Department of Planning and infrastructure
GPO Box 39
Sydney NSW 2001

Dear Director,

Subject: Proposed Foxground and Berry bypass.
Victoria Street Design Options, November 2012.

We support Option 3 and request that you instruct the RMS to implement this option for Victoria Street.

We have also petitioned the NSW Parliament about this matter, along with more than 500 others. In this context, we would like to draw to your attention that in the 2011 Census the population of Berry was 2,421.

Option 3 would cause the least disturbance to the least number of people in Berry.

Option 3 will make Mark Radium Park most easily accessible to travellers to enjoy the attractions of our small town and take an important break from travelling.

Yours faithfully
Richard Wingfield and Frances Hill
