Subject: Foxground and Berry bypass Environmental Assessment - Submission

We own 31 Windsor Drive in Berry which also fronts onto Queen St. I have had informal discussions with council in regards to building dual occupancy on 31 Windsor Dr and gaining access onto Queen St. Currently there is broken divided lines on this section of the Queen St and drive way access across the road on Queen St . I am hoping the proposed improvements to the Queen St & Kangaroo Valley Rd roundabout intersection do not impose on our chances of us gaining driveway access . Currently it is feasible,
We did own A45 Princes Highway which the RMS purchased to build this highway so the impact on our lives have already been considerable.

Thank You for looking at this and taking our proposal into consideration Garry McPake 17/ 12 /2012
