Subject: Victoria St

Dear RMS & NSW DPI,

I am aware that a petition is being presented to the NSW State Govt regarding a protest against the closure of Victoria St, Berry.

Could I please be counted amongst those members of the community who are neutral on this matter? I believe that the RMS are capable of designing the most logical, environmentally-considerate and cost-effective bypass for Berry and if this includes closing Victoria St (which is currently used as an unofficial bypass) then so be it. I encourage you to move forward in your developments as we could continue community discussion for years and never reach consensus.

Let's just get the bypass built and the semi-trailors out of the centre of the village.

Regards,
Fiona Pigott of
51 Victoria St
Berry
