Director-General

The Director,  
Infrastructure Projects,  
Department of Planning and Infrastructure,  
GPO Box 39,  
Sydney NSW 2001

Dear Director,  
Subject: Proposed Foxground and Berry bypass.  
Victoria Street Design Options, November 2012.

I support, and request you, the Director of Infrastructure Projects, to instruct the RMS to implement Option 3 for Victoria St. Berry.

Option 3, by keeping Victoria St. open and maintaining two-way travel between Queen St. and Victoria St, with the southbound on ramp south of Victoria St., will provide the greatest benefit to the people of Berry.

It is the option which maintains most closely the present traffic patterns for residents and for the many travellers who use Mark Radium Park, a favourite 'Rest & Revive' spot.

To have Victoria St. open is a much better option than the unnecessary forcing of traffic onto George and Edward St which would occur if Options 1 or 2 were employed.

Yours faithfully,

A handwritten signature in dark ink, appearing to read "R. Bramley". The signature is fluid and cursive, with a long, sweeping tail.
