Foxground and Berry Bypass - Submission - Traffic

I strongly support the Shoalhaven City Council's recommendation that additional on/off ramps should be provided at Woodhill Mountain Road.

- * Ramps leaving or accessing the Bypass at Woodhill Mountain Road would minimise the impacts of traffic at the Kangaroo Valley Road interchange

and

- * Would lessen the amount of traffic travelling through the centre of Berry.

Traffic congestion on the single off ramp into Berry from the south is expected to occur early in the life of the Bypass. It would be prudent therefore, to build, or at least plan and provide for, an additional northbound off ramp at the Woodhill Mountain Road end of the town. The same applies for a second southbound on ramp at the same position.
