Dear Mr Zhang

## **Chester Hill Materials Recycling Facility - Modification 3 (06\_0052) Environmental Assessment**

I refer to your email of 19 November 2018 to the Department of Industry (DoI) in respect to the above matter. Comment has been sought from relevant branches of Lands & Water and Department of Primary Industries.

The department provides the following comments and recommendations for consideration in assessment of the proposal.

### **DoI – Water and Natural Resources Access Regulator**

- A surface water and groundwater sampling and monitoring program should be developed prior to determination of the proposed development. Water sampling and monitoring should occur prior, during and after the proposed modification to monitor for potential contamination.
- Should dewatering be required, the proponent must apply for a licence to dewater and prepare and submit a Dewatering Management Plan.

Any further referrals to Department of Industry can be sent by email to [landuse.enquiries@dpi.nsw.gov.au](mailto:landuse.enquiries@dpi.nsw.gov.au).

Yours sincerely

Liz Rogers  
Manager, Assessments  
**Lands and Water - Strategy and Policy**
