My name is Theo lianos I am a resident of Hill Top and would like to express my concern over the already loud and disturbing gun noise.

It is very stressful to hear and scary to think that maybe one of those bullets will stray and hit someone as they seem to get louder and louder all the time.

What is normally a nice peaceful day with all the beautiful country atmosphere gets ruined when you hear those terrible gun shots and they echo very loudly.

I really feel they are disturbing the quality of our lives. The thought that the noise limit will be increased is already terrifying .
