Dear Ms Carmsie

Re Application number MP 06-0232 Mod 4

I object to the modifications to the "Southern Highlands Regional Shooting Complex"

The noise levels are already too high and the shooters are here far too often,
spoiling our quiet, bushland home.

Increasing the noise level and modifying the consent, erodes what little amenity we have
left.

Is it been taken in consideration that the SHRSC is in a high fire risk area?

One thoughtless action can have big consequences.

Yours faithfully

Mr M.Starrenburg.
