Dear Michelle

Re Hill Top Shooting Complex

It seems we greatly like the likelihood of an increase in gun noise in Hill Top. From what I gather the existing gun law noise levels is to be legally increased to cater for the additional gun noise expected from the proposed rifle club. To me that really is an admission that there will be a lot of additional noise from the complex.

It is easy to see there is potential for the complex do not live at Hill Top and will not have to suffer the increased gun fire noise, but the downside that the noise level would be much higher than the legal requirement determine they would not have sought action to change the noise fence requirement.

With the limited use now of the rifle club the noise can be very intrusive and annoying. We at Hill Top just wish that as it is infrequently used. However under new changes to change of the existing rifle club the noise will be 7 days, all day and some of the night.

Evening shooting will definitely upset the young to bed sleeping patterns of sleeping old children.

If we are outside we can clearly hear shooting noise, and on the odd occasion much at present. Any increase in noise will make it unbearable, even

create the future. We are not as young as we used to be, we enjoy the life style of the 1st ^{Top} (greatest), husband sitting, colorful bird life) at the moment and have some as for the last 21 years. All this will change, even the birds will be driven away by the noise, the greatest drive out Waller Ridge Rd & the quiet bird world will disappear.

I do not think people understand the objection by the Top Resident. There have been several "changes" with this husband venture & each time legislation has been changed to overcome their "changes", just as a happy family man. Please do not change what these legislators

Yours faithfully
