☒ Please delete my personal information before publication

**Please tick the appropriate boxes below
I object to the following:**

- ☒ Having a waste management and crushing facility bordering rural properties and within 100m of family homes
Total out of character for the rural living nature of the local natural environment.
- ☒ Having reduced air quality due to silicosis dust, causing future cancer risks.
This is against the local council's Future Vision Document (L1 - "Promote healthy living" and advocating Getting
"Out and about in the fresh air")
- ☒ 200+ trucks per day travelling through the local roads past local front doors causing increased traffic congestion,
also causing noise & vibration to the local residence.
- ☒ **Reduction in land value caused due to this Resource Recovery Waste Facility in the area.**
- ☒ Destruction of 1.5 Hectares of the endangered Pygmy-Possum's habitat. This contradicts Local Councils future
vision (I3 - Ensure land use planning and development is sustainable and environmentally sound and considers the
importance of local habitat, green corridors, energy efficiency and stormwater management)
- ☒ Offensive smell caused by stockpiling of industrial waste.
- ☒ Contaminated groundwater.
- ☒ Contaminated drinking water from airborne pollutants with water tanks, which goes against councils Vision (A4
Enhance community safety within neighbourhoods, public spaces and places)
- ☒ The Height, scale, visual bulk. As it would be a visual eyesore and out of character with the surrounding forest
landscape and rural residential blocks.
- ☒ The risk of asbestos becoming airborne with earthworks on the property (It has been noted in their own report that
asbestos has already been located on site.)
- ☒ Possible destruction of commonly occurring Aboriginal artefacts in the area.

Other:

WHAT ELSE IS THE GOVERNMENT
PLANNING THAT WE DO NOT KNOW
ABOUT. OUR COUNTRY IS DRY AND
ARID - WHY DESTROY THE LITTLE EARTH
