Attn : **Director – Industry Assessments**

Relating to :

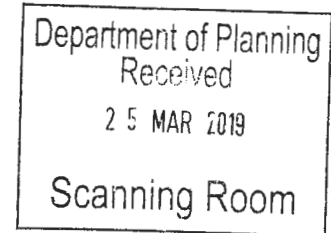

**Application No:** SSD 8660

**Location :** 90 Gindurra Rd, Somersby  
(Lot 4 DP 227279)

**Applicant :** Davis Earthmoving & Quarrying P/L

**Council Area :** Central Coast

**Consent Authority :** Minister for Planning or Independent  
Planning Authority

Dear Sir,

I object strongly to this Application No: SSD 8660 for the following reasons :

1. It involves the excessive dumping of construction and demolition waste within the nearby Somersby Industrial Park impacting on legitimate SME business owners ;
- 2 . It involves a waste management facility bordering rural Properties and family residences;
3. Vastly increased traffic congestion,unbearable noise and vibration from from over 200 trucks daily impacting on local access roads;
4. Development will seriously reduce air quality due to the inevitable presence of silica dust; the stockpiling of industrial waste will produce offensive and disagreeable smells; Somersby is currently a tourist attraction for both Somersby Falls and well known Somersby Reptile Park.
5. Siting a waste facility on this site will mpact on the surrounding house and land values;proximity to Juvenile Justice Centre, Mount Penang Gardens,Kariong Mountains

High School and nearby Kariong township.

6. Asbestos has already been located on applicant's site and the risk of airborne asbestos generated from earthworks is totally unacceptable.

**Please withhold my name from the list of public submitters and I have no alliance to any politic party to this objection.**

Yours sincerely,
