lot 4 dp1022342 new entrance road
south west rocks

I wish to object to this project because the area is wet land and flood prone.
Also it is scenic protection, and the sight of cabins on stilts would look out of place in this area.

Also there are three caravan parks with cabins already in south west rocks.
The cabins there are usually booked out over christmas holidays and sometimes over easter, but the parks struggle to fill them the rest of the year, so I can't see any need for more cabins at south west rocks.

Also if these cabins are approved the developer then would try to expand, expand and expand until the whole area is one big caravan park.

Yours respectfully
