---

Dear Diane,

**RE: MODIFICATION REQUEST FOR WELLINGTON GAS FIRED POWER STATION (MP 06\_0315 MOD 2)**

I refer to our telephone conversation this morning and wish to confirm that I object to the proposal subject to the conditions outlined in my Submissions.

As stated to you I believe the proposal is too close to the town of Wellington because of the hazard risk and emissions are very likely to hang over Wellington for long periods as what occurs when there is fog as Wellington is in a valley.

Keston Rose Garden Cafe is closed [REDACTED]  
[REDACTED] Sadly, [REDACTED] one more  
small business and tourist attraction has been lost.

Also, any investment in my Aged Care Development proposal on the Nanima Subdivision Land, that was once the old Wellington Golf Course, has evaporated due to the Power Station proposal.

I confirm I have not made any Political Donations since 1999 and you have my permission to publish my Submissions.

Many thanks for your assistance,

Yours sincerely,

N Barton  
Nanima House  
WELLINGTON
