

The GM of Wellington Council has directed us to email our objection to this email address as the link on your website was not available.

My husband and I object to the proposed Gas fired Power Station at Wellington. Due to my research on the effects of such an activity we object due to the noise, (audible, low frequency and infrasound) and dust.

Please take note of our objection.

Your sincerely
Helen and Warren Crittle
Springdale
Spicers creek Road
Wellington. NSW
