Dear Brendan

I am emailing to object to Modification 6 on the Wilpinjong Coal Mine.

As a frequent visitor to the Wollar community I am very concerned about the cumulative social impacts to the community that are creating an unacceptable environment for people to live in a way that nurtures community and provides an emotionally healthy environment.

The school no longer boasts a vibrant atmosphere because of loss of enrolments and the distortion of the property market has placed considerable strain on people staying, leaving and looking to move in to the community. The community is in crisis.

With the proposed further expansion of the mine impacts will increase as health issues relating to dust and sleep disturbance are experienced due to the close proximity of coalmining operations that will also disrupt the flow within the community that is already in a state of crisis with the rapid changes.

regards
Jenny Brown
