Modification to the Wilpinjong Coal Mine Project (05_0021 MOD 6)
Submission of Objection

Thursday, July 17th, 2014.

To Whom It May Concern,

Please accept my submission of **objection** to the proposed modification to the Wilpinjong Coal Mine.

The residents of Wollar live constantly with noise, dust and spontaneous combustion. Peabody have shown that they are unable to manage the spontaneous combustion which has plagued the mine for years, therefore an expansion or modification will only make it worse.

A major concern for me and my family is the speed at which mine traffic travel through our village. This also needs to be considered with any application for modification or expansion to the operation.

We are assured that this modification will have very little impact but we've been told that in the past and it simply hasn't been accurate.

I definitely **oppose** any modification or expansion of the Wilpinjong mine.

Yours Sincerely,

Lucinda Fetch.

16 Barigan St, Wollar.
