TO Brendan liew,

My name is indigo Kriedemann i was born in Mudgee hospital and lived in Wollar from the time i was born (and attended Wollar public school) til i finished high school in 2001. I strongly object to modification 6 at Wilpinjong as over the last 13 years i have seen a happy thriving community reduced to nothing. I still have family in the area and am horrified at the stories about the affects the mine have on their lives and livelihoods!! some of my happiest memories are of my childhood in Wollar and now going back brings me to tears. The community spirit in Wollar was always second to none we had fun runs, a local cricket team, bush dances.. all that is lost now and much to the detriment of the area. So please take into consideration my objection and those of others in your decision as i know that anyone who has ever spent time in Wollar would be objecting about the "modification" 6 at the Wilpinjong coal mine.

yours sincerely

Indigo Kriedemann
