Bangan Rd

Wollar 2850

To the Planning Assessment Team,

I HELEN BARNES have live at Wollar for 22 years the property is 20km up the road. My objection to this extension is two fold first watching our lovely village systematically destroyed over the last 6 years with people having their properties requisitioned then leaving a family to use the school and the mine keep saying nother would the shop would still sell all our needs and Mechanically service but No we cannot buy our plumbing, fencing, stock feed nor Mechanic so if anything goes wrong we have to take it to town 70km away if we can do that Real Estate agents have told me they will not come and list my property as the distortion of the markets no one would want to buy as the also have to drive through 13km of mine land. We also have to put up with hunters we think if the mine owned the road they can shot and trap everywhere as they cannot tell 13km from 26km. Secondly the noise which still already impacts me greatly its like living on freeway the large trucks driving 24/7 just outside my window.

and I can hear large rocks landing in trucks
it's only going to get worse so I don't need to
suffer only more. So with not much social
life left eg dance, B.B.Q, Party, we don't ever
have our own firebrigade anymore there is
not much left even the mail down to
three days a week. The MoreD11 dozers
Noise policy does not work for Wollar.
I do hope you take what I say seriously
as we are the ones putting up with all
this disruption to our life.

Thank you

Helen Barnes.
