Subject: Exhibition of Environmental Assessment for White Rock Wind Farm [Application Reference MP10_0160, DTIRIS reference V11/1726]

James

Thanks for your departmental letter dated 20 May 2011 (reference 10/11837) requesting a written submission from DTIRIS in response to the exhibition of the Environmental Assessment for White Rock Wind Farm.

I apologise for the delay in getting a coordinated whole of DTIRIS response to you by 27 June 2011 per your request.

No substantial comment was made by DTIRIS Branches concerning the EA for this Project.

Minerals Branch is pleased to note that the proponent has consulted mineral title holders in the subject area, and has made a commitment to ongoing consultation with the current holders of the relevant exploration licences in the area. This consultation will also include the provision of final wind turbine locations and details of access tracks and other wind farm infrastructure to title holder prior to construction. The Minerals Branch would like to request that this information be also supplied to them prior to turbine construction.

If you would like any further information on this matter, please contact me on 8281 7726.

Regards

Mona
