**Re: Objection to Wind Farm – FLYERS CREEK.**

**I make submission in Objection to Flyers Creek Windfarm.**

I am an asthmatic and we moved from the Hunter Valley to Errowanbang in 2007 for a healthy lifestyle. We live in Site 75, my husband manages the property known as "Errowanbang".

We have a son that attends Errowanbang Public School. The school will only be 1.5 klms from the closest wind mill. Our concerns are the impact that the Noise/infrasound/flicker effect/visual pollution, will have upon the children's learning. Our son will have gone to high school before the turbines are in place but I worry about the other children, as I work at the school part-time.

My husband suffers with high blood and I am a poor sleeper so we are deeply concerned of the "Quality of Life" that we will experience.

The local roads are of poor quality at best, so we wonder how they will stand up to the Extra Heavy Traffic.

Yours Sincerely,  
Anne Haines.
