Ref: Submission with regards to the Flyers Creek Wind Farm (Application MP08-0252)

Dear Mr. Philip

I am a third generation farmer in the Flyers Creek District and have lived in the area all my life.

I strongly support Infigen's Proposal to build a wind farm at Flyers Creek.

I believe renewable energy, such as wind is a positive way forward for our states energy requirements to supplement our coal-fired power stations.

The development of the 200 million dollar wind farm project would be a real asset to our Blayney Shire Council. The construction period would create many jobs and business opportunities in our area. Together with future jobs in the operation and maintenance of the forty four wind turbine farm.

I feel that the wind farm project would have a great benefit for our rural community.

Sincerely,

Allan Colman
