Ref: Submission with regards to the Flyers Creek Wind Farm (Application MPO8-0252).

Dear Mr Philp,

We Barry and Leesa Baker are writing to you in **support** of the Flyers Creek Wind Farm. We feel to ensure a healthier greener future for generations to come then we need to encourage more green energy, by way of both solar and wind powered energy.

The Flyers creek wind farm will supply the Cadia Valley Gold Mine with power, a mine which uses a huge amount of power each year, this will reduce the amount of carbon produced by the coal fired power stations.

We already have a wind farm in the area which has not created any problems to the neighbours or the community, in fact it appears to be a tourist attraction as it overlooks Carcoar Dam which is a popular camping, fishing and skiing spot.

We hope you take these reasons into great consideration.

Sincerely,

Handwritten signatures of Barry and Leesa Baker in blue ink. The signature 'Barry' is written above 'Leesa'.
