**In Support of Flyers Creek Wind Farm Orange NSW**

**Planning Ref MP08-252**

I would like to give my support to the proposed Flyers Creek Wind Farm for the following reasons.

1/- Carbon abatement.

2/- Provision of employment opportunities.

3/- It is currently the highest energy per area form of renewable energy.

4/- It is low maintenance as compared to other form of generation.

5/- Infigen are making local ownership of a turbine possible.

6/- As an electrical engineer and pilot, I like the look of the towers and blades.

Yours faithfully

Jeremy J Cubitt
