I ~~have~~ have not made any political donations in the last two years. (If yes please disclose)

STATEMENT

Having had a building business in Blayney for 25 years and being pro-development, I wholeheartedly support this project.

The comprehensive EIS and associated documents are on display and Regis has given the public every opportunity to become familiar with the proposal. Community Open Sessions attended by their staff together with independent specialists have been held and more are scheduled. The Company has welcomed and addressed community input, be it positive or negative.

REASON

Regis has already invested millions of dollars in our area. They have engaged plumbers, electricians etc and sourced many other local services. They are already employing several local people and they rent two premises in Blayney – an office complex in the town area and a large shed in our industrial area, so even now, the proposal is stimulating our community.

There are only positives and a bright future to be enjoyed from this project and I wish them every success.
