McPhillamys Gold Project
Application number SSD-9505

Support/object: (please provide your statement below)

I support The Regis Resources project.
This will be the turning point for
Blayney with helping locals with employment.

Reason: As a 2nd year apprentice as an electrician
I would definitely be looking at employment.
I currently work with a contractor who we
do Industrial Electrical Installations at Cadia Mine
This will boost our town with bringing more families
to the community.

~~I have~~ I have not made any political donations in the last two years. (If yes please disclose)
