McPhillamys Gold Project
Application number SSD-9505

Support/object: (please provide your statement below)

I fully support the McPhillamys Gold Project and hope approval to proceed is given in the near future.

Reason: EMPLOYMENT; After the closure of the local abattoir some years ago the chance for local employment (labor, skilled, clerical etc) was greatly diminished. The mine would improve this immensely.

BUSINESS: I think the possibility of more businesses opening would improve. Over the years we have had menswear, ladies wear, shoe shops close mainly because of our close proximity to Bathurst and Orange. With more people living in town more businesses would be encouraged to open.

I have/have not made any political donations in the last two years. (If yes please disclose)

The mine would also be a great boost to existing businesses.
