Support/object: (please provide your statement below)

1. Blayney lacks major industry - locals have to travel as far as cober for employment.
2. Small business is struggling in blayney - any injection of available cash here from local employment and new citizens that would come from employment in the proposed mine could just help save blayney from economic
Reason: extinction!

Blayney has not got an attraction to attract the tourist dollar thanks to our low level council. So I believe the only thing that will boost blayney's economy is industry such as the McPhillamys Gold Project.

I have/have not made any political donations in the last two years. (If yes please disclose)
