McPhillamys Gold Project
Application number SSD-9505

Support/object: (please provide your statement below)

I want the mine to go ahead because I believe that it would benefit the Blayney community by providing more job opportunities for both younger and older people wanting to work. This mine would bring in outsiders that are looking for work and therefore result in an increase in population that would benefit the economy of the Blayney community. I also believe that this mine would also benefit the farmers as some of them are really struggling financially because of the drought but if they are able to get additional work through the mine this would benefit many of the local farming families of Blayney. This mine will strongly benefit Blayney in many positive ways.

Reason:

I am about to complete my HSC and I am looking forward to potentially working for this mine and company.

I ~~have~~ have not made any political donations in the last two years. (If yes please disclose)
