

PCU078458

Terry Cashen
35 Plumb St,
Blayney 2799
N.S.W. 14/10/2019

Application no:

SSD-9505

I OBJECT to the proposal at
McPhillamys gold Project.

Department of Planning
Received

17 OCT 2019

Scanning Room

- My family have been a part of Kings Plains for generations, I grew up in the village and still live in Blayney area, to loose this fertile grazing land to a mine would be a crime.
- The tailings dam situated on the headwaters of the Belabula river will affect all the work done by the fisheries dept. in their efforts to keep fish stocks at a maximum, Carcoar Dam will be endangered by the pollution from the mine site.
Carcoar is an attraction for many local families and travellers in summer months it is a thriving recreational area, these people all spend their money in Blayney to loose this would be a great shame.
- My brother and I are having trouble with the sale of my fathers property no one wants to buy at Kings Plains, and the value of properties will be severely affected.

— The strong easterly winds will be a health concern for the town of Blayney. I am worried for my family, my daughter, and my grandchildren, with all the pollutants in the air.
