McPhillamy's Gold Project SSD-9505

My Statement - I object to the Proposal
I own horses and dogs

My reason is I am concerned about
Water Contamination
(tailing, heavy metal)

Noise, dust light pollution ~~how~~
it will affect competition horses
lungs ect, temperament, performance

The building I live in is very old
structural damage is a concern
and comfort, also have some very
old elms either side of house which
I am worried about falling on house
during operations at mine.

And of course losing Prime Grazing
land in a time when food is becoming
scarce, Due to lack of Water.

I love this part of the world, have
been here two years and 1 month

yours truly,

11.10.2019.

Toni-anne Douglas.
