I am a long time Resident of Blayney with Extended Family Living here i am About 4<sup>ks</sup> From The mine Site, Local Family's and Struggling Farmers The Chance of Apprentiships are my Concern give local a Chance For Work and Reason: Keep Buisnesses going its Border line at The moment i Personally Worked in The Construction of Junction Keeps and Browns Crk mine and have Seen no problems associated With The work That Was Done There.

The headlands Water Group Have Failed on nearly all of There Concerns. 1. The loss of Water from The Tailung Dams Area is not Significant and if They an That Community were That Concerned. Clean out the Willows That Block e Suck The life out of the River. 2. The Claim of Contamination of the River For generations The Part of the Group have Done nothing To eliminate Phosphates e Chemicals up Stream making Carcoar Dam unsafe To Swin e Fish as of the Blue Green alge Blooms

I have/have not made any political donations in the last two years. (If yes please disclose)

3. Most of The Objectors Knew There Was a possibility of a Mine when They Built and Expect Compensation

The mine has Done its home work, and Dont need Problems i am a hands on person and Wish That you visit me and i Can Show you, The Objectors ~~are~~ Objecting Dont Show a Valid Objection and They are Not Correct in 90% of what They are Claiming  
5 years Sincerely Peter Hildenbeutel 16/10/2019.
