Central West Logistics PtyLtd

91 Lone Pine Ave,  
Orange NSW 2800

We are happy for our name not to be withheld.

McPhillamys Gold Project  
Application number SSD-9505

Our company is very much in support of this mine site, as we think it will greatly help boost the local economy. We believe the jobs this will provide will greatly help all businesses and family around the region as we are currently in a drought and lots of people around are generally struggling to keep on top of their expenses.

Our company is a small family owned business who does General freight out of Sydney, Melbourne and Adelaide. We run 5 nights a week to Cobar and Broken Hill and do work for the mines at both Broken Hill and Cobar, we enjoy working with all the team at these sites and greatly want to grow alongside the mining industry.

We are hoping we will be able to assist them with any of their freight needs, big or small to help us grow also.

Central West Logistics have not made any political donations in the last two years.

Sincerely

Geoff Dwight  
Operations Manager
